About me

> I am a front-end developer with a focus on elegant design and good user experiences. Elegant and DRY code is now my focus.

> I consider myself a team player and a problem solver. I am always keen to collaborate with coworkers to produce creative, elegant solutions to difficult problems.

Experience

ZevDesigns

Boston, MA
Present

In the freelance branch of my work I work with small businesses, start-ups, and individuals, who are looking for web development, design, & administration, print work, branding or photography.

Boston Young Creatives

Lead & Organizer
Boston, MA
June 2012 – Present

A meetup.com group with over 900 members, 30+ attending each social meet up. The group's mission is to encourage a communicative environment where creatives from every field know what to expect when working with each other professionally.

Partners+simons

Front-end Developer
Boston, MA
December 2013 – September 2014

My focus is on front-end, responsive web development. My responsibilities include coding HTML5, CSS3, and JavaScript. My cross-industry experience provides me the ability to work with other creatives to create a cohesive digital experience.

Scholastic Inc.

Front-end Developer
Watertown, MA
July 2012 – November 2013

With a focus on front end development, information visualization design, and document design, I assisted the Hosting & Operations and Enterprise Services departments. Working with engineers and management to put together visuals which would serve as a portal of information for external departments.

nSphere Inc.

Front-end Engineer
Boston, MA
July 2011 – March 2012

My primary position in this role was developing the UX for a new white-label local search feature. My responsibilities also included updating and building HTML products, branding, and building a new MVC based corporate website.

PullnotPush.com

Design and Development
Boston, MA
July 2010 – Sept. 2010

Working in a web startup in a mostly digital environment. The focus was on inbound digital marketing, email, and web pages. Hubspot Certified company.

Nuance Communications, Inc., Dragon NaturallySpeaking

Graphic Designer
Burlington, MA
Feb. 2010 – June 2010

A co-op position in the marketing department working with digital, physical, and multimedia marketing. My work was based around email marketing, data sheets, and video projects.

Digital Media Design Studio NU Libraries

Software Specialist, Designer
Boston, MA
July 2008 – Feb. 2009

Performed as a central member of a multimedia lab, teaching the Adobe, Final Cut, and iLife, suites. Key responsibilities also included web maintenance, print creation, and multi-department collaboration.
